

NEW REPAIR & SYSTEM TEST CAPABILITY

Pacific Scientific SC400 Series AC Servo System

Technical Bulletin

K+S Oakville is pleased to announce it's system test capability for the Pacific Scientific SC400 Series AC servo system. The servo motors for this system utilize the Servo-Tek "TachSyn" positioning feedback. The TachSyn feedback device improves accuracy & reliability for this series of Pac-Sci servo motors. This test system is designed to fully run test Pacific Scientific servo motors with or without encoder feedback.

12 Month In-Service Warranty

All Units Are System Tested

No Charge Evaluation
