

# NEW REPAIR & SYSTEM TEST CAPABILITY

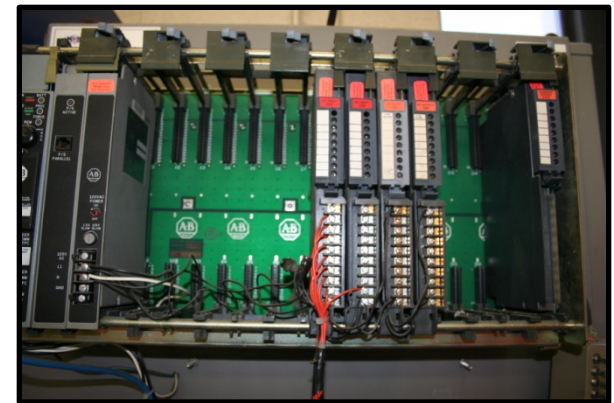

## *WTC Weltronic/Technitron Weld Controller*

### Technical Bulletin

K+S's WTC weld controller consists of the following components:

DIO Converter	U60-D01A
Master Controller	WT01-M01A
U60S Timer	U60-T90 / 91A
Teach Pendant	TB90-P02A

The PLC 5/25 cycles the I/O for a complete loop test, while the load transformers load the output stage up to 90KVA for full load closed loop testing.

**12 Month In-Service Warranty**

**All Units Are System Tested**

**No Charge Evaluation**
